ABSTRACT

The soybean variety ER22621 is disclosed. The invention relates to seeds, plants, plant cells, plant tissue, harvested products and soybean lint as well as to hybrid soybean plants and seeds obtained by repeatedly crossing plants of variety ER22621 with other plants. The invention also relates to plants and varieties produced by the method of essential derivation from plants of ER22621 and to plants of ER22621 reproduced by vegetative methods, including but not limited to tissue culture of regenerable cells or tissue from ER22621.
